Personal profile

Highly motivated and detailed oriented Frontend Developer with a strong foundation in HTML, CSS, JavaScript, React and Tailwind CSS. With a background in Computer Science and experience in data analytics, I bring a unique blend of technical and analytical skills to web development. Passionate about creating responsive, accessible and user-friendly web applications, I specialize in building interactive UI components and optimizing web performance. My proficiency with package management tools like npm allow me to develop scalable applications efficiently.

Beyond development, I am also an educator with a talent for breaking down complex scientific and technical concepts, making them accessible to learners. With strong problem-solving skills, a keen eye for design, and soft skills certifications in communication and teamwork, I am eager to contribute to innovative projects and collaborate in a dynamic development environment.

Experience

High School Teacher | TMM Secondary School **2024-09 – Present**

- Created and implemented an inclusive lesson plan to high school students leading to a 10% increase in mathematics test scores of average students in grade 10 first term examination results.
